Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No similarity percentage is produced.** "87%" does not say what is missing; "two different first names" makes someone open the file.

The result across the 18,400 rows

Situation	Rows	Next step
Matched on a shared identifier	1,144	No action
Matched with at least one divergence	96	Human decision
Unmatched	17,160	See the files' perimeters

What matters is not how many matches were found, but how many decisions remain to be taken. 18,400 rows become 96 cases, and a figure of 1,240 matches would be worthless if all 1,240 had to be reread.
