412 rows — two perimeters, one written down

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

Fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No data migration is proposed until the perimeters are written down.** Migrating first would amount to mixing two territories without knowing it.

Cause	Rows	Nature
Municipality joined in 2024, never added to the second file	**390**	**Perimeter**
Recent creations not carried over	14	Delay
Rows closed on one side only	8	Circuit
Total	**412**	—

The two files do not describe the same territory, and no document says so. Every cross-file statement produced for two years therefore understates part of the territory, without anyone having made a mistake.

What each file covers

Element	File A	File B
Created in	2016	2019
Municipalities covered	**18**	**17**
Municipality that joined in 2024	**Included**	**Absent**
Last perimeter extension	2024	**2019**

What is proposed, in this order

Step	Content	Why this order
1	**A one-page note: two perimeters, two dates**	**Without it, any migration is blind**
2	Decision: extend file B, or accept two perimeters	It is a management choice
3	Data migration, if the decision is to extend	—
4	State the perimeter on every cross-file statement	**So the reader knows what they are reading**

The fourth step outlives the other three. Even after a complete migration, a cross-file statement that does not say what it covers will one day be read as covering everything.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.
