Morning watch — 4 flags

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

08/08/2026 · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The fourth flag is not a data anomaly**: it is a perimeter nobody had written down, and it is the most useful of the four.

#	Flag	What triggered it	Nature	Recipient
1	Equipment with two values	Asset register vs accounts	**€12,400 gap**	Department owning the reference file
2	**Two close records**	3 agreeing fields	**To be decided — never merged**	**Officer able to open a document**
3	9 diverging amounts	Grants vs contracts	**Circuit, not keying**	Both departments
4	412 rows with no counterpart	Perimeter comparison	**Perimeter never written**	Head of service, once

Why the second does not go to a dashboard

It goes to an officer who can open an identity document in the file. Matches between people displayed in a collective report get handled in series, and a decision taken in series about people is exactly what must be avoided here.

Proposed chases

Flag	Without action	Then
Feeding a financial statement under way	**Reminder at 24 h**	Head of service at 48 h
Others	Reminder at 7 days	Head of service at 14 days
All	—	**Monthly summary, by type of gap**

> **The monthly summary is by type of gap and by pair of files, never by resident.** A summary organised by person would in effect be a register of people — built by accumulation, without anyone deciding to build one.

> **Request a demo with your own documents**
> This document is a fictitious example. To see the agent work on your own documents, request a demo from its page.

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
