Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **The fourth flag is not a data anomaly**: it is a perimeter nobody had written down, and it is the most useful of the four.

#	Flag	What triggered it	Nature	Recipient
1	Equipment with two values	Asset register vs accounts	€12,400 gap	Department owning the reference file
2	Two close records	3 agreeing fields	To be decided — never merged	Officer able to open a document
3	9 diverging amounts	Grants vs contracts	Circuit, not keying	Both departments
4	412 rows with no counterpart	Perimeter comparison	Perimeter never written	Head of service, once

Why the second does not go to a dashboard

It goes to an officer who can open an identity document in the file. Matches between people displayed in a collective report get handled in series, and a decision taken in series about people is exactly what must be avoided here.

Proposed chases

Flag	Without action	Then
Feeding a financial statement under way	Reminder at 24 h	Head of service at 48 h
Others	Reminder at 7 days	Head of service at 14 days
All	—	Monthly summary, by type of gap

The monthly summary is by type of gap and by pair of files, never by resident. A summary organised by person would in effect be a register of people — built by accumulation, without anyone deciding to build one.
