Agreements — 41 expected documents

LINDBERGH FORMATION — 16 rue de Maillé, 91310 Montlhéry, France · Companies register (RCS) Evry 817 946 114

Document issued on 09/11/2026

34 agreements · fictional document

Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

Fictional document, produced for demonstration. **No chaser is sent by the agent.** It warns whoever will sign it, fifteen days before the date.

Quarter	Documents expected	Received	Late	Still to come
Q1 2026	11	**9**	**2**	—
Q2 2026	9	**7**	**2**	—
Q3 2026	12	4	0	**8**
Q4 2026	9	0	0	**9**
Total	**41**	**20**	**4**	**17**

Eleven documents are expected before December, two of them this month. Today those dates live inside the agreements, which is to say nowhere: the list exists nowhere, and an absence produces no signal.

The two dates this month

Document	Due	Agreement	Signing department
Association's half-year review	**31/08/2026**	Agreement of 15/01/2026	Community services
Supplier's technical report	**31/08/2026**	Contract of 08/03/2025	Technical services

The tracking proposed

When	Action	Recipient	The guarantee that comes with it
15 days before	Flag	**Signing department**	**No chaser sent**
On the date	Flag	Signing department	—
15 days late	Flag	Signing department + chief executive	—
Quarter end	Summary: expected, received, late	Chief executive	**By agreement, never by organisation**

> **The summary is by agreement and not by organisation.** The point is keeping a calendar, not scoring partners — and a ranking of the most delayed organisations would serve something other than the calendar.

---

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected; the events logged, their content, their retention period and who may access them are defined for the deployment chosen.
