## Fictional document — demonstration example

This document is produced by the Blue Lemon Agent website to illustrate what an AI agent hands to its users. The companies, matters, amounts and people in it are invented. It has no legal, accounting or commercial value.

**Fictional document**, produced for demonstration. **The fourth flag is not a delay: it is a document received that nobody knows was received.** It is the easiest of the four to fix and the most invisible.

| # | Flag                          | What triggered it             | Deadline                       | Recipient                    | Chase       |
|---|-------------------------------|-------------------------------|--------------------------------|------------------------------|-------------|
| 1 | 214-page report never opened  | Arrived 12/07, 0 openings     | <b>Deadline 15/09, p. 187</b>  | Chief executive + department | <b>24 h</b> |
| 2 | Two diverging versions        | Appendix 3, different figures | Joint document in September    | The 2 holding departments    | 7 d         |
| 3 | Report cited and not found    | Internal note                 | —                              | Author of the note           | 7 d         |
| 4 | 4 expected reports unreceived | Live agreements               | <b>7 months for the oldest</b> | Signing departments          | 7 d         |

**The first flag would never have surfaced otherwise.** A report nobody opens produces no signal: there is no error, no complaint, no visible delay — only a deadline approaching inside an appendix.

### Flag 1 — why it comes first

| Element                      | Value                     |
|------------------------------|---------------------------|
| Pages                        | 214                       |
| Received                     | 12/07/2026                |
| Openings since               | 0                         |
| <b>Deadline contained</b>    | <b>15/09/2026, p. 187</b> |
| Days remaining               | <b>39</b>                 |
| Authority named in the scope | <b>Yes, p. 12</b>         |

The last row is what turns general information into an obligation of your own. Without it, the page 187 deadline might concern nobody here.

### Proposed chases

| Flag    | Without action     | Then                         |
|---------|--------------------|------------------------------|
| 1       | Reminder at 24 h   | Chief executive at 48 h      |
| 2, 3, 4 | Reminder at 7 days | Chief executive at 14 days   |
| All     | —                  | Monthly summary, by document |

Scope of this document: the service operated by Blue Lemon Agent. For an agent deployed at your premises, the applicable location is that of the architecture set out in the quotation and verified before commissioning; local execution is announced only for the configuration explicitly described and accepted in the quotation; the applicable isolation depends on the deployment mode set out in the quotation, no dedicated isolation being presumed; the encryption mechanisms in transit and at rest, their components and key management are those documented for the architecture chosen; roles and permissions are configured and accepted for the identities and systems actually connected. For events logged, their content, their retention period and who may access them are defined. **Page 26 of 3**
